## Attenzione !

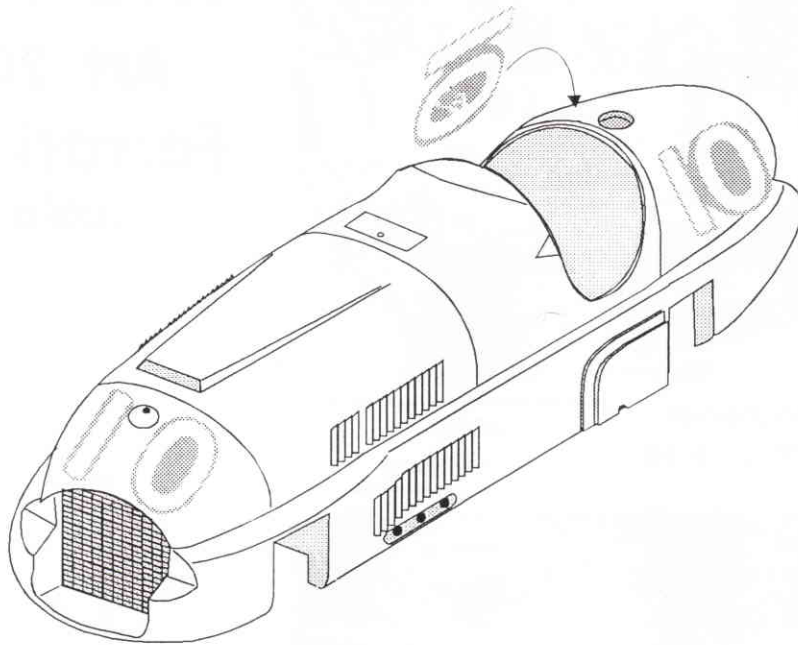

Prima di fissare i pezzi controllare il perfetto adattamento ed incastro e se necessario, forate carteggiate o stuccate ogni parte prima di verniciare. Lavare ogni pezzo di resina con sgrassante antisiliconico prima di verniciare. Date una mano di filler prima di dare il colore definitivo.

## Warning!

Before fit pieces together, try the correct fit and position and if necessary, drill, sandpaper or putty, before painting. Wash each resin part with antisliliconic degreaser, before painting. Paint part with filler before apply the correct color.

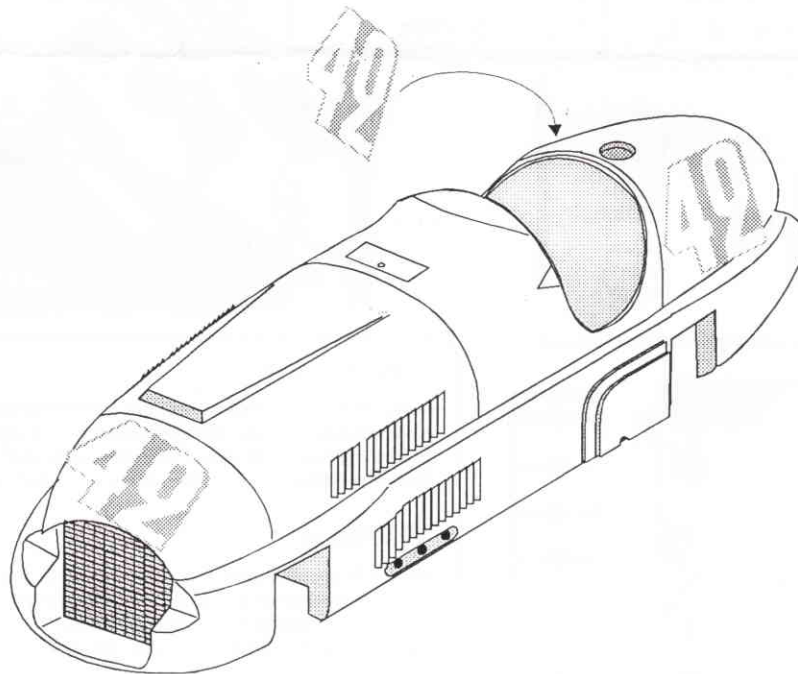

## Note :

- 1) Tutti i pezzi possono essere incollati con cianoacrilato, araldite o colla epossidica, tranne le parti trasparenti.
- 2) Le parti trasparenti possono essere incollate con colla vinilica o colla speciale per pvc trasparente.
- 3) Un ammorbidente per decals è indicato per facilitare il posizionamento delle decals più grandi.
- 4) Per forare o allargare un foro, usate un trapanino a bassa velocità .
- 1) Cyanoacrilate cement, epoxy cement or araldite can be used for all part, except pvc transparent parts.
- 2) Pvc transparent parts can be cement with vinilic or gummy glue.
- 3) Soften decals solution is recommended for decals application.
- 4) to make or enlarge holes, use carefully a low speed drill or a pin vise.
